ISABS & OD

Founded in 1972, the Indian Society for Applied Behavioural Science (ISABS) is a national, voluntary community of behavioural scientists committed to enhancing individual, organisational, and societal well-being.

Its members - academicians, HR leaders, consultants, trainers, and change agents - bring deep expertise in human processes to enable meaningful and lasting change.

As pioneers of Organisation Development (OD) in India, ISABS has carried forward

the work initiated in the late 1960s by eminent behavioural scientists such as Udai Pareek, Pulin Garg, Dharni Sinha, to name a few. The Organisation Development Certification Program (ODCP) is a natural extension of this legacy, embodying ISABS's philosophy and process-work expertise.

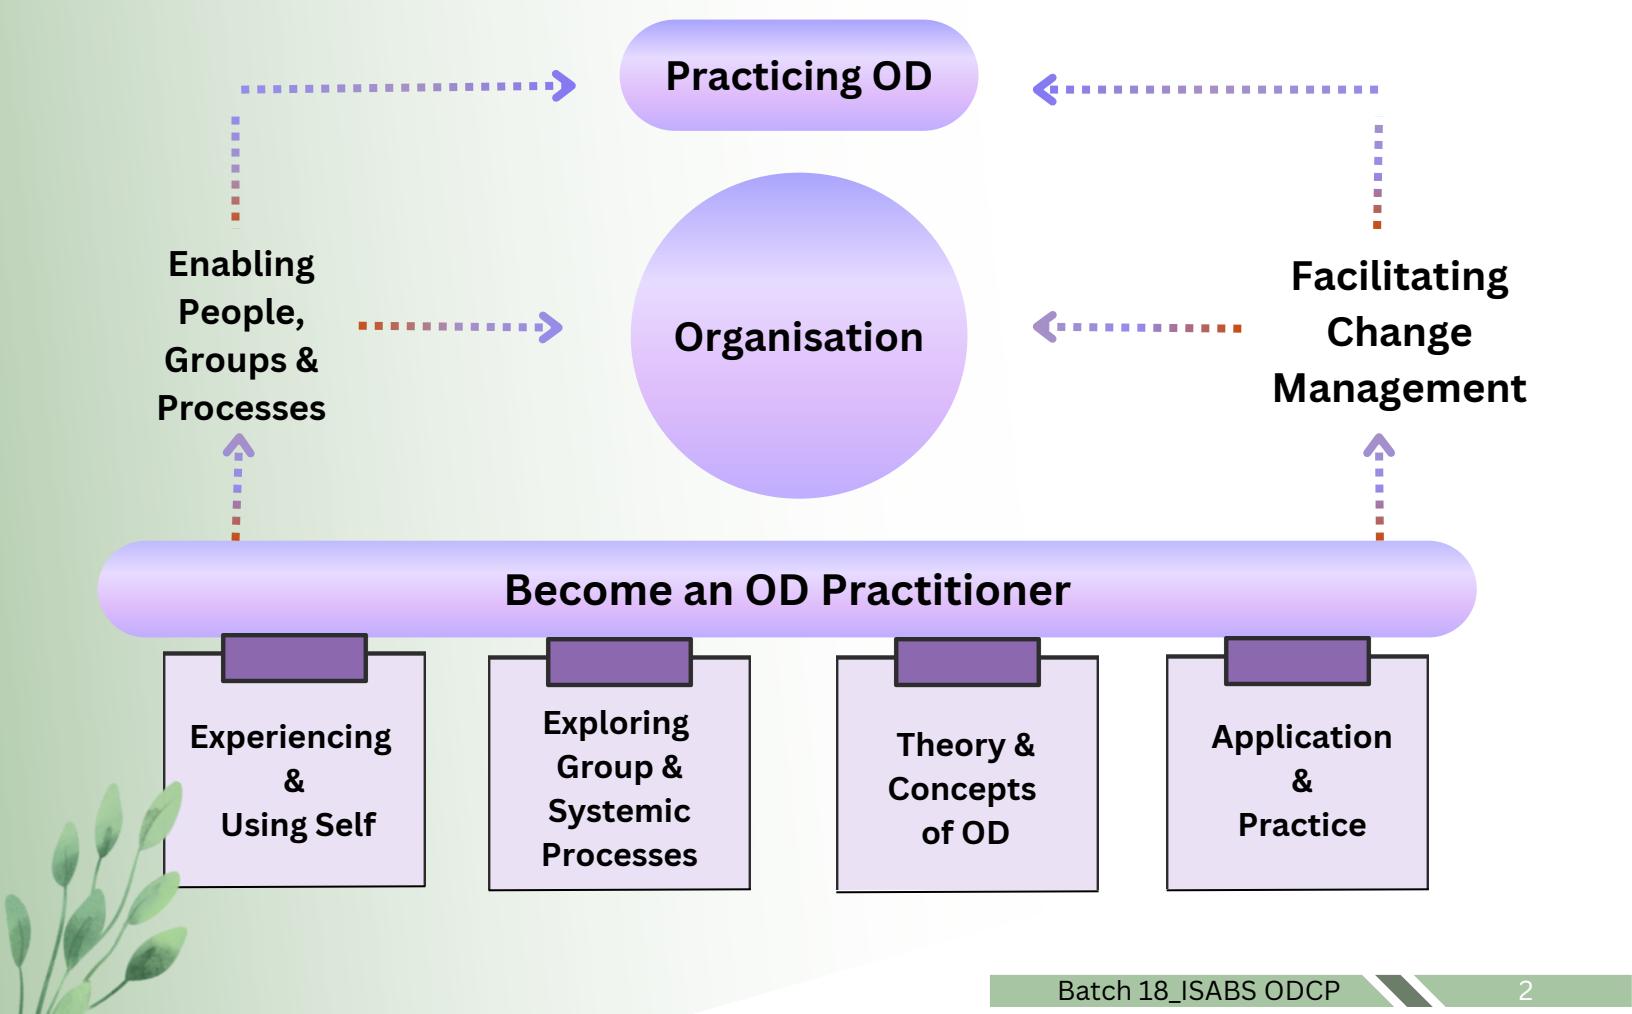

ABOUT ODCP

The Organisation Development Certification Programme (ODCP) is a transformative 18-month course. It's not just a learning experience; it's your gateway to making a meaningful impact in your organisation and beyond. In a world where the future of work is constantly evolving, adaptability is no longer optional - it's essential.

The ODCP empowers ambitious professionals like you with the knowledge and practical skills to navigate the complexities of organisational dynamics. ODCP is meticulously crafted around four essential pillars of learning, guiding you through - understanding organisations, understanding the dynamics of human processes, facilitating change, and enhancing effectiveness. With ODCP, you'll not only enhance your professional competencies but also become an integral part of your organisation's journey toward excellence.

FRAMEWORK OF ISABS ODCP

WHO CAN APPLY

Graduate Degree in any discipline (post-graduation will be an added advantage)

Experience of 5+ years in:

- ◆ Managerial position in any organisation, faculty in an educational institute
- ◆ Entrepreneur/Independent Business owner, Leader, Consultant in any field

It is essential that the individual has an interest in understanding and facilitating individuals, groups and systemic dynamics along with a desire to build knowledge, skills, and an application-oriented approach to building effective organisations.

OD PROGRAMME OBJECTIVES

This journey helps you discover how to work with both people and systems in ways that truly empower change. Whether you're in business, education, development, or any other field, you'll build the skills to become a confident OD practitioner who can guide transformation with clarity and care.

This journey helps you:

- Understand how human and organisational dynamics really work.
- Step into leadership roles that spark growth and inspire others.
- Navigate complexity with confidence and compassion.
- Apply OD principles in real-world settings across diverse contexts.

WHAT'S AT THE HEART OF OUR PROGRAMME?

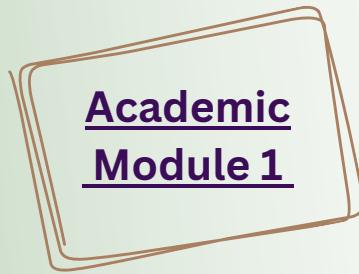

Growth that's real, reflective, and rooted in practice. Our programme blends experiential learning, self-reflection, and collaborative practice to foster deep personal and professional growth.

Through hands-on projects, shadow consulting, and continuous coaching, participants translate theory into action and develop the skills to lead change across systems. Guided by expert facilitators and a rigorous academic framework, the journey empowers individuals to unlock their potential and drive meaningful impact.

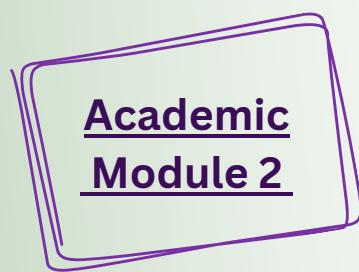

It's a journey that helps you turn insight into impact and equips you to lead change with clarity and confidence.

TESTIMONIALS

ODCP was a milestone in my journey, one that went far beyond academics. Starting with the idea of self as the instrument of change, the program helped me reflect deeply, explore group dynamics, and build a strong foundation in OD. Looking back, I can confidently say it didn't just strengthen my professional skills, it reshaped the way I view myself and my role as a catalyst of change.

Rajiv Naithani, CHRO Persistent Systems - ODCP Batch 7

ODCP is the best journey I ever had. I joined it to learn more about OD techniques but like Alice in Wonderland, I wandered into a wonderful self-exploration. It's made me a better person who is better able to understand the world around me and the humanness and dynamics in everything and hence a better OD Professional. My approach towards my work initiatives have changed and the feedback from my stakeholders has made me realize the value of all that I have learnt. The faculty, the mentors and coaches are all fantastic people who genuinely want to help. It is certainly one of the best programs in OD.

Dipti Vijaykumar, Assistant Vice President - OD, First Meridian Business Services - ODCP Batch 12

The beauty of the OD Research session for me was it taught me how to convert soft data into hard metrics that most business leaders are looking for and which is so essential to eliminate the touchy-feely tag that gets stuck on most things developmental!! As an alumnus of batch 13, I can attest that as a participant you are writing logs (for a start) which makes you reflect and mind you the more raw your emotion, richer is your learning. Allow me to sum it up by saying that while it impacts your mind it enriches your soul more. You'll walk out a different person from this crucible!! Incredible journey!

Sonal Sharda, Soldier, Leader, Strategist - ODCP Batch 13

To me the highlight of this journey of self-growth was the structured curriculum, brilliant team of the course director and the facilitators. Additionally, the cherry on the cake was to have two people #mentor and #coach whose sole focus over the year and a half was to ensure that you had everything you needed for success. When in our professional careers do we get an opportunity to experience such deep guided investment by experts in their field.

Ajay Kukreja, Seasoned HR Professional DCP - ODCP Batch 13
